# Architectural Concept

The architectural concept has been developed by WTM Engineers GmbH (Germany) together with “UIMP-Projekt” Ltd

- Architectural concept includes:
- ☞ Accommodate automotive companies
  - ☞ Open storage ground
  - ☞ Warehouse terminals
  - ☞ Manufacturing plants
  - ☞ Hostels
  - ☞ Low-rise buildings
  - ☞ Social infrastructure

# Industrial Park Fyodorovskoe: Masterplan

At this moment the industrial park counts 21 Russian and international residents

In September 2011 OOO Jotun Paints has acquired 9 hectares of land in the Fedorovsky Industrial Park as the first step in constructing a factory for production of paint and powder coatings. In October 2012 there was a new factory foundation stone laying ceremony

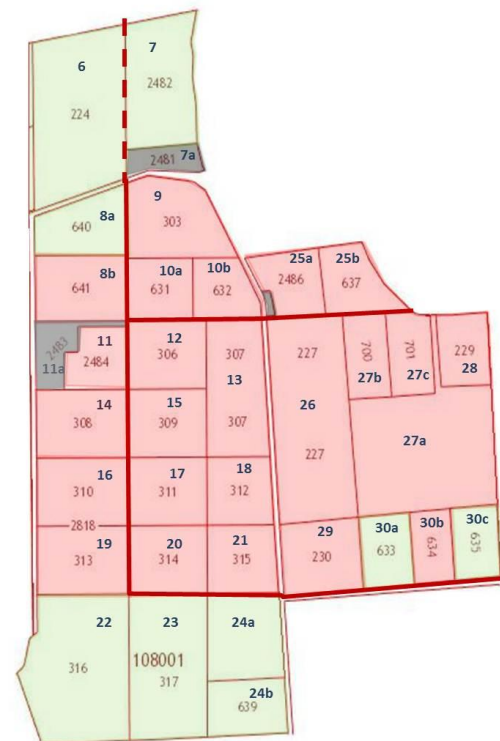

In August 2012 one of the leading industrial companies JSC "Agrisovgas" has acquired 6.2 hectares of industrial land in the "Fyodorovskoe" Industrial park with the intention to build one of the largest galvanization factories in the St. Petersburg area with production capacity of 55 thousand tons per year. This will be the third facility of this kind in Russia to be built by "Agrisovgas".
